2026 Pediatric Cardiology Symposium

Friday, June 5, 2026

Intended Audience

The 2026 Pediatric Cardiology Symposium is designed to provide pediatric practitioners with practical, up-to-date knowledge on the recognition and management of common and complex cardiovascular conditions in children. Through focused lectures, interactive case discussions and hands-on breakout sessions, participants will gain confidence in identifying cardiac red flags, understanding current diagnostic and treatment approaches, and knowing when to refer to subspecialty care. The intended audience for this symposium includes pediatricians, family practice physicians, residents, fellows, physician assistants and nurse practitioners.

Learning Objectives

At the conclusion of this activity, participants should be able to:

1. Perform recommended screening, diagnosis, management and referral to Preventive Cardiology and Center for Healthy Weight and Nutrition
2. Interpret EKG red flags and know when to refer for palpitations or tachycardia
3. Know when to refer for FH of cardiomyopathy
4. Interpret common murmurs and murmur red flags and treat or refer as appropriate
5. Determine chest pain evaluation and management and treat or refer as appropriate
6. Improve teamwork and communication among the health care team
