

2024 Nationwide Children's XR Symposium

We invite you to submit an original research abstract for oral or poster presentation at the 2024 Nationwide Children's XR Symposium. Submissions must be received by June 3rd, 2023 and authors will be notified of acceptance no later than July 1st, 2024.

All presenters must be registered to attend the conference. At the time of notification of acceptance presenters will also be notified of the format of their presentation and the date/time they will present during the conference. Please review the following submission guidelines carefully.

Abstract Submission Guidelines:

- **Eligibility:**
 - Abstracts containing methodological, clinical or translational research findings in the fields of trauma and emergency care can be submitted.
 - Abstracts that have been submitted to or presented at other national or international meetings may be submitted.
 - Abstracts will not be considered for presentation if they have been published as an article or have been accepted for publication (including manuscripts) in printed or electronic formats upon submission deadline.

- **Formatting:**
 - Abstract titles may not be longer than 255 characters, including spaces. Identifying information like author or institution names must not be included in the title.
 - Abstracts should be structured under the following headings: Background, Methods, Results, and Conclusion.
 - There is limit of 500 words, including spaces, for the abstract text. Information included in tables or images does not count toward this limit.
 - Abstracts may include up to two images per abstract. Images will only be accepted in gif, png, tiff, tif, jpg, or jpeg formats. PDFs will not be accepted.
 - Any author wishing to include a table with their abstract must submit the table as an image file type.
 - Authors are responsible for obtaining any necessary image permissions for inclusion in their abstracts.
 - Drug products mentioned in abstracts should be identified by their nonproprietary (i.e., generic) names only. Do not capitalize nonproprietary names. All off-label or non-FDA approved uses must also be disclosed.

- **Presentation rules:**
 - Presenters must present in person.
 - Submission of an abstract constitutes a commitment by the author(s) to register and present the abstract (if selected for presentation) at the date, time and location specified in the acceptance notification.
 - Abstracts may be presented only by authors listed in the author string at the time of submission.

- All presentations will be in English. Oral presentations must be made by an author who speaks and understands English.
- The corresponding author certifies that all authors named in the abstract have agreed to its submission for presentation; that any animal studies conform with the October 2014 revision of The Guiding Principles in the Care and Use of Vertebrate Animals in Research and Training by the American Physiological Society; and that any human experimentation conducted conforms with the principles of the Declaration of Helsinki of the World Medical Association, and meets all the requirements governing informed consent of the country in which the research was performed.
- By submitting an abstract, the corresponding author affirms that their co-authors have participated sufficiently in the intellectual content, the analysis of data and the writing of the abstract to take public responsibility for it.
- Corresponding authors affirm that they and the other authors submitting an abstract certify that the data included in their abstract submission and/or presented is truthful, original, unduplicated and without fraud or fabrication.
