Place: Virtual

Presented From:

Nationwide Children's Hospital
700 Children's Drive
Columbus, OH 432056

Description: The 1st Annual IMPAACT Summit at Nationwide Children's Hospital will be a two-day regional and national event with multiple visiting professionals as well as our own Clinical Therapy experts from Nationwide Children's Hospital. A variety of topics focused on Augmentative and Alternative Communication in pediatric populations will be presented including research and clinical practice skills. Through a series of sessions lead by experts in the area of AAC and assistive technology, attendees will gain knowledge about collaboration for best care, treatment techniques to support children who use AAC, and strategies to support communication partners. The event is appropriate for Speech Language Pathologists, Occupational Therapists, Special Education Teachers, and other pediatric care providers.

Learning Objectives:

- 1) Participants will provide at least one example in which interdisciplinary collaboration would be needed for an AAC user.**
- 2) Participants will state at least one treatment technique to promote AAC use in children with complex communication needs.**
- 3) Participants will explain at least one technique to support communication partners of children who use AAC.**

Time Ordered Agenda:

* These sessions will be virtual and presented live one time.

Time Ordered Agenda: September 9, 2021
